

IMPLEMENTATION AND TRAINING PACKAGES

In line with our goal of assisting entrepreneurs to expand their businesses, whilst ensuring compliance and averting risk, we have developed a range of implementation and training packages aimed at providing for the needs of a variety of businesses, regardless of their industry or size. This unique service also aims to practically implement and train staff on the legal solutions we have constructed for the client. In addition, we also do training needs assessments in situations where Employees are not performing as they should be and before any formal labour / HR processes are undertaken by the Employer.
