BROAD BASED BLACK ECONOMIC EMPOWERMENT ("BBBEE") SERVICES

- In South Africa, BBBEE compliance is crucial to remain competitive in the market place and to grow your business.
- Moreover, it is a moral imperative required to collectively address inequality, not only in the workplace, but also in society through the creation of a more participatory economy.
- In a nutshell, compliance is turnover-based and dependent on the industry. It is measured through a scorecard system.
- BBBEE’s broad–based approach naturally lends itself to align with existing business practices, as well as the latest best practices. Thus, even if a business has taken advantage of mechanisms to comply whilst being an EME (Exempt Micro Enterprise) or QSE (Qualifying Small Enterprise), i.e. below R 50 million in turnover, a strategic plan to comply in anticipation of the business growing is also critical.
- BBBEE is often met with resistance, and the field of law is ridden with misconception on the subject. It is a complex regulatory field and compliance should be embarked on with the support of a reputable Professional Expert, such as ourselves. Yes, non-compliance holds no penalty, but it will result in your removal from the supply chains of your Customers and thereby potentially closing your doors! Erroneous compliance on the other hand, or ill-constructed measures, may result in a fronting practice which carries both a financial and criminal penalty.

Don’t be the last to know that you are facing imminent risk of non-compliance or ill-conceived compliance with BBBEE! Don’t postpone becoming compliant or revising your strategies today!

SchoemanLaw Inc. may be the right fit for you and your business!
